

PRODUCT INFORMATION

Stress & Sleep

TAD+

TAD+ provides synergistic vitamins and herbs along with a high concentration of adrenal complex. The adrenal complex contains biologically-active proteins, enzymes and nucleic acids, necessary for the support of proper adrenal functions. Deficient kidney mineralization and function, overuse of stimulants, environmental pollution and stress contribute to adrenal toxicity and exhaustion, leading to adrenal atrophy. **TAD +** is indicated for symptoms associated with stress and adrenal exhaustion, including allergies, hypoglycemia, hypotension, chronic fatigue syndrome, adrenal atrophy; and for premenstrual symptoms such as irritability, sugar cravings and bloating.

Recommended dose: take 2 tablets in the morning

Manufacture dose: Take one dose 3 times daily with meals, a few hours before taking any other medications or as recommended by your health care provider.

EACH TABLET CONTAINS:

- Vitamin A (vitamin A palmitate) 1000 mcg RAE / 3333 IU
- Vitamin C (ascorbic acid). 166 mg
- Thiamine (thiamine mononitrate) 8 mg
- Riboflavin. 6.6 mg
- Niacinamide 50 mg
- Vitamin B6 (pyridoxine hydrochloride). 16.6 mg
