## PSY-STABIL

Modern lifestyles often cause mental and emotional stresses that can result in nervous dysfunction, and later somatic illnesses. These disruptions should not be treated solely by sedation, but rather also by the harmonizing therapy provided by **PSY-stabil** drops, which enable patients to once again function normally in their daily social and job responsibilities.

**Recommended dose:** 15 drops 2x/day

**Manufacture dose:** 15-20 drops 3x/day
