

HMF FORTE

HMF Forte provides two strains of *Lactobacillus acidophilus*, *Bifidobacterium bifidum* and *Bifidobacterium animalis* subsp. *lactis*, along with fructooligosaccharides to specifically assist in re-establishing and maintaining a normal intestinal microflora. Human MicroFlora (HMF) probiotic strains are research-driven and clinically proven in randomized, double-blind, placebo-controlled human trials at 25 billion CFU. HMF Forte is a moderate-level maintenance probiotic formula indicated for individuals who use antibiotics, oral contraceptives, steroids and hormonal replacement therapy, and for extreme fatigue, allergies, yeast overgrowth, stress, hypercholesterolemia and indigestion. The capsules are 100% pure vegetable-sourced. Product ideal for vegetarians.
