

PRODUCT INFORMATION

Cardiovascular

CLAUPAREST (50 ML)

Circulatory disturbances can cause a wide variety of symptoms that range from numbness, cramps and tingling sensations to gangrenous processes.

Clauparest drops help eliminate these underlying circulatory disruptions, whether caused by injuries, metabolic anomalies or cramps triggered by psychological or somatic reasons. As a result, this medication allows the body to restore its self-regulation capabilities and function properly again.

Recommended dose: 15 drops 2x/day

Manufactures dose: adults take 15-20 drops 3x/day
