

PRODUCT INFORMATION

Kidney and Bladder

RENELIX

RENELIX drops support the excretion of concrements (precipitated minerals) and toxins deposited in the kidney cells, and helps restore normal kidney function. **RENELIX** drops also help counteract intoxication through aging or illnesses that weaken metabolic processes, which can result in hypertonia (abnormally increased muscle tone), diabetes or precancerous conditions such as arthritis and rheumatism. Finally, this remedy helps regulate toxic blockades in chronically ill patients, which allows systemic healing to take place.

Recommended dose: 15 drops 2x/day

Manufacture dose: 15-20drops 3x/day

Ingredients/ Therapeutic Profiles:

Benzoicum acidum 4X uric acid diathesis
