EMVITA 27 (50ML)

Emvita 27 (Not Wanting to Face Reality)- Emotional issues addressed: You view life through rose-colored glasses and ignore the uglier sides of life. You feel the world is a hard place, so seek escapism (i.e. dreams, fantasy, books, meditation, drugs). You are not able to tolerate your reality, so banish it from your perception. You dream of living a different life. Often you are more open to perceptions, but unable to integrate your visions into everyday life.

This conflict can be due to forced religion, blind obedience, withheld information and lies. Behind the escape tendencies and repression can be hidden emotional traumas or unbearable frustrations that are associated with dark or unpleasant memories. This can lead to avoiding reality or escapism tendencies including retreating to a world of fantasy, psychoses or drug addiction. One may not accurately remember their own childhood or life history due to the fictitious world they have created or reprogramming the past into a more positive light.

Guidance: Truthfulness and objectivity are qualities that correlate with your existence and living in the present. Escaping from past painful events cuts off from your own liveliness. You are not able to change the past by pretending to be in a different reality, so focus on the present.

Positive Affirmation: I view my personal reality with open eyes, while remaining in the present and keeping my mind on my goals.
