EMVITA 16 (50ML)

Emvita 16 (Panic)- Emotional issues addressed: You have been deeply hurt and it seems hard to believe that you will ever be able to fully trust or feel completely happy again. You may tend to anticipate things going badly. You experience anxiety or panic, but mask them with an attitude of braveness and ambition. The panic can be a true panic attack or negative thoughts that produce brief fear that you have become accustomed to. A fear of failure can make you highly competitive.

This conflict can be due to abandonment, rejection, death, divorce, grief, betrayal, a broken heart, severe emotional trauma, or a panic-inducing experience. An emotional experience has led to anxiety and/or panic attacks, fears, and phobia. Such feelings like fear of dying and feelings of paralysis cannot be resisted. Fears can build up in huge proportions in one's imagination.

Guidance: Life always goes on, even after the worst situations. Since fears blow the flow of energy, you should develop and strengthen your basic trust in the positive and tranquil aspects of life.

Positive Affirmation: *I listen to my heart and listen to the voice of love, light and clarity.*
