EMVITA 17 (50ML)

Emvita 17 (Emotional Emptiness) -Emotional issues addressed: You have difficulty expressing yourself and often swallow your feelings. You have experienced a trauma or shock that you haven't recovered from. You may appear indifferent or have 'no feelings', as little emotion is expressed. You can present a calm, controlled and rational exterior with nothing seeming to affect you. You don't express how you feel and ultimately, don't speak your truth.

This conflict is related to communication and can be due to a great trauma or shock that you haven't recovered from. You may have been exposed to lies, emotional abuse, secrets, criticism, death of a loved one, or in a drug dependent family. You may have had feelings of growing up invisible.

Guidance: Free your suppressed emotions to re-harmonize your heart and your mind. Notice what you are prone to swallow or suppress, and then actively express these emotions and feelings. This will allow you to be more authentic, straightforward, and learn to say what you really mean.

Positive Affirmation: *I feel alive and am open to express my emotions.*
