

PRODUCT INFORMATION

Metabolic Typing

GLUTATHIONE 60VCAP

Glutathione is used for a **Dysaerobic Metabolic** Imbalance.

A **dysaerobic imbalance** is when oxygen metabolism goes too far, producing free radicals but little energy. Cell membranes contain too many free fatty acids and are too permeable. Apart from fatigue, common symptoms include pain, colitis, hypoglycemia, insomnia, allergies, rheumatoid arthritis, many cancers, elevated cholesterol etc.

Recommended Dose: 1 capsule 1x daily or as directed by a health care practitioner.

Ingredients:

Reduced L-Glutathione 50mg

Non Medical Ingredients:

Base of microcrystalline cellulose
