

ZINLORI 75

Zinlori 75 contains a high potency, patented zinc-carnosine complex to address the underlying issues related to occasional indigestion—where many conventional approaches fall short.

- Supports a healthy gastric environment.
- Helps relieve mild and occasional gastric discomforts, including heartburn, nausea, bloating, and upset stomach.
- Promotes a healthy gastric microbial balance.
- Helps maintain the integrity of the protective gastric mucosal lining possibly by supporting healthy mucus secretion.
- Some research indicates that zinc-carnosine may protect gastric mucosal cells without altering prostaglandin metabolism.
- Gastro-supportive benefits demonstrated in over 20 published studies.
- Same raw material used successfully by healthcare practitioners in Japan since 1994.
- Does not affect stomach digestion.
- Clinically effective dosage in just two tablets daily.

Recommended dose: take two tablets daily with food a few hours before or after taking any other medications

EACH TABLET CONTAINS

Zinc (as zinc-carnosine) 17 mg

Zinc-Carnosine 75 mg

Other Ingredients: Microcrystalline cellulose, stearic acid (vegetable), silica
