EMVITA 7 (50ML)

Emvita 7 (Show of Strength) Emotional issues addressed: You appear strong and in control on the outside, but feel weak, tired or vulnerable on the inside. You lack inner peace. You hide behind false self confidence, which may be seen as arrogance or defiance. Despite feelings of weakness, you still push on resulting in a tendency to exert yourself until you drop. You often exceed your own limits.

The conflict can be due to neglect, denial of feelings or abuse. Circumstances in life have lead for the need to pretend to have more strength than one feels they actually have, and to hide their weakness and symptoms (including adrenal burnout).

Guidance: Realize your own strengths, talents and potential, while at the same time acknowledge and accept your true self and your areas of weakness. Modesty, sincerity and truthfulness are an expression of genuine strength.

Positive Affirmation: I am my true self. I am strong inside and out and can handle situations.
