

ULTRA CLEAR PLUS

UltraClear Plus is a medical food designed for individuals with chronic fatigue syndrome who may benefit from nutritional support for altered energetic and liver detoxification function. Altered detoxification function may be due to genetic predisposition, a history of chronic nutrient insufficiency, and/or toxin overload, which can result in a build-up of stored toxins and a subsequent increase in symptoms and/or tissue damage.

Blend, shake, or briskly stir 2 level scoops of **UltraClear Plus** into 8 ounces of chilled water or juice twice daily or as directed by your healthcare practitioner. For highly sensitive individuals, consider reducing consumption to 1/2 to 1 scoop with 4 to 5 ounces of chilled water or juice twice daily during the first 3 to 4 days before starting a full daily dose.
