

PRODUCT INFORMATION Cold, Flu & Immune

ITIRES DROPS

Itires is a homeopathic medicine that is intended to assist the body in improving flow of lymph in the body. Lymph is a fluid which drains from the body tissues along lymph channels and nodes, which are immune filters. When the lymph is not draining properly, an immune stress can result, creating a decrease in the ability of the body to adequately address an infection or inflammation.

Conditions benefited by this product: Inflamed lymph tissue, swollen glands/nodes, lymphatic infections, acute infections of the organs and mucous membranes, pus-producing infections (like bronchitis and tonsillitis), mumps, adenoma, mastopathy, benign swelling of the breast glands and neoplasm. Dr. Gaul often uses this medicine in the clearing of old lymphatic stagnations like you may find in digestive problems, skin issues or repetitive infections of the respiratory tract.

Recommended dose: 10 drops 4-6x/day, gargle and swallow

Manufactures dose: 15 drops 3x/day

Ingredients:

Barium carbonate 8X

Potassium iodide 4X

Cistus Canadensis 3X

Conium maculatum 6X
