## DALEKTRO N 50ML

**DALEKTRO N** drops contain homeopathic minerals that normalize regulation of the electrolyte system and stimulate enzyme activity. These minerals also act as vital catalysts that activate profound chemical changes at the cellular level to help return a chronically ill body to health.

**DALEKTRO N** drops are particularly indicated for treatment of diseases that involve an impaired metabolism, including leukopenia, anemia, thyroid gland afflictions, heart conditions and arteriosclerosis.

These homeopathic drops differ from the standard mineral supplements by providing a unique stimulant that enables the body to utilize trace elements present in the digestive tract and replace those missing at a cellular level. Reasons for mineral deficiencies may include poor absorption due to intestinal dysbiosis, an impaired mucosal system, bad nutritional habits, self-intoxification through smoking or chronic illness.

**Recommended Dosage:** Adults 15-20 drops 2X per day directly or in water. Children 7-19 drops 2 X per day directly or in water.

#### Ingredients:

Argentum nitricum 4X mucous membrane inflammation, nervousness  
Calcium carbonicum 6X blood coagulation  
Cobaltum nitricum 6X RES, blood formation  
Cuprum aceticum 12X reabsorption of nutritive iron  
Ferrum metallicum 6X blood formation  
Kalium carbonicum 4X activates enzymes  
Magnesium muriaticum 4X connective tissue degeneration  
Manganum aceticum 8X activates enzymes  
Selenium 12X antioxidant, eliminates cadmium and mercury  
Silicea 12X builds connective tissue
