

GASTUL (APO-STOM)

apo-STOM drops detoxify the stomach and intestinal tissues. This medication is indicated for treating symptoms that include overacidity of the stomach, gastritis, stomach pressure, burning sensations, feeling of fullness and nervous sensations.

The stomach is considered extremely susceptible to psychosomatic stimuli, as well as mental or emotional stress that can result in functional impairment. This dysfunction must be treated synergistically, which is the reason for the unique combination of ingredients found in **apo-STOM** drops, including components that address over acidity by regulating the parietal cells.

Recommended dose: 15 drops 2x/day

Manufacture dose: 15-20 drops 3x/day
