

PRODUCT INFORMATION

Metabolic Typing

MODIFIED CITRUS PECTIN (MCP) 300G

Modified Citrus Pectin is used for Metabolic Typing Cancer Care treatment.

This agent is gentle, non-toxic pectin from citrus fruits. It is used to prevent spread (metastasis) and to inhibit cancer cell growth

Recommended Dose: 1 tsp 1-2x daily or as directed by a health care practitioner.

**Should be taken on an empty stomach at least 30 minutes before or 2 hours after food and 2 hours away from other supplements or medications. May be mixed with any cool or room temperature or as directed.*

Ingredients:

Modified Citrus Pectin 4800mg

Serving: Per slightly rounded tsp (4.8g)

Non-Medical Ingredients:

Base of microcrystalline cellulose
